

A Unit of Luxury Decor

PVC PANEL

 PVC PLAIN BOARD | 2G | 4G

ABOUT US

STAR PVC, we are the pioneer in interior decorating with a range of options for home decorations to office spaces. We are the '**CLASS A**' manufacturer of **PVC Wall Panels** with long term durability and best quality.

Our panels are easy to install, low maintenance, waterproof and works well in difficult conditions and terrains. **PVC** wall panels are completely hassle free and upgrades the look completely. This interior wall paneling trend has replaced other wall finishes such as wallpaper, tiles cladding, and paint. The **PVC Wall Panels** is the most popular wall panel. They can be used to improve the appearance of your interiors, as well as the floor and furnishings.

Today, **PVC** panels have become a strong pillar in the construction industry that replaces wood in exterior applications.

The polyvinyl chloride panels are available in different thicknesses and shades, making them popular for decorating..

A few areas to install PVC Panels include:

- Window & Door Surrounds
 - Fascia & Soffit Trim
 - Deck Skirting
 - Architectural Mouldings
 - Column & Post Wraps
 - Porch Ceilings
 - Corner Boards
- Coming to the residential application, the PVC Wall Paneling turns out to be a suitable choice for the following spaces:
- Bedroom
 - Living Room
 - Kitchen
 - Office
 - Lobby & Most importantly, the Roofs
- 

Advantages of PVC Wall Panels :

- PVC wall panels can be very useful when there is dampness in a wall. It can resist moisture very well.
- PVC is an environment-friendly material. Much medical equipment and food packaging are made from it because they do not cause any harm to the environment. This makes it useful for schools, hospitals, and sports arenas.
- PVC is very resistant to moisture. It is free from cracks and pores, which prevents bacteria growth. The boards have a layer of polyurethane that gives them a smooth, plain surface. These boards are easy to clean. It is easy to clean the wall paneling because there is no dirt on it. These panels can be used in kitchens and bathrooms, as well as other rooms.

When used on exterior surfaces of the house, they don't rust.

- They burn slowly because their ignition temperature is 60 C. They emit less smoke than wood, and they are less toxic in the natural environment. Because these panels are lightweight, the installation time is very short. These panels are easy to cut and install without the need for grout.
- The interlocking tongue and groove system allows for the fast fixing of many panels. This allows you to easily replace one panel if it becomes damaged.
- Insulating with PVC panels is easy.
- PVC panels can be recycled and old ones can be given to a recycling facility.
- PVC panels come in many different colors and designs. Designers have many options when it comes to creating a wall decoration.
- PVC panels have a finished surface. These panels do not require any additional finishing, such as painting or polishing.
