Built-In-Oven

Kitchens, as they should be!

Chimneys with BLDC Motor

Designed to deliver ultra-low noise performance (up to 10dB lower than conventional chimneys), Crompton chimneys have a powerful BLDC motor at the heart of it.

Hobs with full brass burners

Our hobs are fitted with full brass burners making them suitable for versatile cooking. The innovatively designed digital timer hobs allows you to switch off the hob at pre-set time.

Dishwasher with PureBeam + Technology

Keep all your utensils 99.99%* bacteria-free and odour-free after every wash with our PureBeam+ technology. High grade stainless steel in our tub is rust and corrosion free that makes Crompton dishwasher perfect companion for Indian utensils.

Ovens with steam assisted cooking Technology

Steam assisted cooking and 3D heating features of our ovens delivers perfect baking results. What's more, the pyrolytic and steam cleaning features take away the hassle of cleaning the oven.

Microwaves and warmer drawer with full black tempered design Technology

Our microwaves and warmer drawers come with full black tempered glass design, 8 Auto menus and soft touch control. Accessories like baking pan, grill pan, and grill rack are an extra delight.

Digital timer in wok burner*:

Now, no worries about switching OFF the hob! Get consistent cooking results with our OpTime hobs. Just set the timer and our hob gets the job done for you.

Toughened glass with bevelled edges:

The toughened glass of our hob can withstand heavy loads without giving up, and the bevelled edges keep the premiumness intact.

I,

Flame Failure Safety Device:

In the event of a spill, our smart sensor enabled hobs automatically turn off the gas supply, ensuring your safety and peace of mind.

High efficiency full Brass Burners*:

Our hobs include full brass burners for increased efficiency and consistent heat distribution, making them perfect for slow cooking as well. The brass design also ensures a long life and high performance, saving you the trouble of having to replace your burners due to melting.

Auto-ignition:

Lighters will become a huge no-no with our auto-ignition hobs that ignite on their own.

BUILT-IN OVEN

Steam Assisted Cooking

Our steam plus (steam assisted cooking) feature ensures that you never compromise on deliciousness of your food by adding extra moisture to it. So, your freshly baked bread can taste extra fresh.

3D Heating

Blow hot air around the food maintaining an even flow of the hot air at all levels and at a consistent temperature.

Pyrolytic cleaning

The pyrolytic mode in our ovens helps eliminate the need for any and every kind of additional detergent-based cleaning steps by turning up the temperature to 450 °C, which helps convert the residues left over from roasting, grilling, and baking into a thin layer of ash that can simply be wiped away with a damp cloth.

Hot Air Shield

Prevent users from the hot and wet air that escapes from the oven door, after the cooking is done.

Steam Cleaning

Function that softens up the dried food stains inside the cavity with vapour, ensuring that your oven's cavity stays hygienic and odour-free as ever.

BUILT-IN MICROWAVE

Convection cooking:

Designed with an additional element around the convection fan, our ovens are built to provide additional heat for convection-style cooking, so your meals never lose the warmth that they are made with.

8 Auto menu:

Whip up any dish you want with our microwave ovens that are designed to help you excel at cooking with the 8 auto menus, making them smarter kitchen assistants who ensure smoother cooking experiences for you.

Crompton Innovation & Technology

Stainless Steel Inner Body

Rust & corrosion free high grade SS inner body for hygienic wash and longer life.

Silent Inverter Motor

Powerful and energy efficient Crompton Inverter motor delivers low noise performance.

Intelligent Turbo

Drying Technology

Resulting in completely dry dishes with no water droplets.

Water Consumption As Low As 9 Ltrs* Per Cycle

Our dishwashers consume only 9 ltrs* of water against regular handwash that consumes 60 ltrs* of water for same load.

Steam Wash[#]

Creates steam inside and softens up the crusts and leftovers from pots, pans, kadhai's to fragile glasses. Directly applied steam ensures perfect hygiene and gentle cleaning for dishes.
